SUBJECTS

Abscess

- Novel technique for peritonsillar abscess drainage, 637

Acoustic stimulation

- Treatment of tinnitus with customized, dynamic acoustic neural stimulus: clinical outcomes in general private practice, 791

Adduction

- Reflex vocal fold adduction in porcine model: effects of stimuli delivered to various sensory nerves, 749

Adenoid

- Obstruction of eustachian tube orifice and pressure changes in middle ear: are they correlated? 425

Airway

- Airway obstruction: rare complication of benign vocal fold polyps, 106
 Computational fluid dynamics analysis of upper airway reconstructed from magnetic resonance imaging data, 303
 Cricotracheal resection in nontracheotomized adults: prospective case series, 288
 Neonatal upper airway obstruction in osteogenesis imperfecta: series of three cases and review of literature, 27
 Optical coherence tomography of newborn airway, 327
 Utilization of LifeStat emergency airway device, 1

Anastomosis

- Ansa cervicalis-to-recurrent laryngeal nerve anastomosis for unilateral vocal fold paralysis: experience of single institution, 40

Anesthesia

- Dexmedetomidine sedation for laryngeal framework surgery, 659

Antibiotic

- Assessment of trends in antimicrobial resistance in chronic rhinosinusitis, 448
 Lemierre's syndrome: what are roles for anticoagulation and long-term antibiotic therapy? 679

- Microbiology and antimicrobial susceptibility patterns of commensal flora in middle nasal meatus, 914

- Treatment of sinusitis with corticosteroids in combination with antibiotics in experimentally induced rhinosinusitis, 389

Anticoagulation

- Lemierre's syndrome: what are roles for anticoagulation and long-term antibiotic therapy? 679

Anxiety

- Do anxiety and depression confound symptom reporting and diagnostic accuracy in chronic rhinosinusitis? 18

Apnea

- Adjustable tongue advancement for obstructive sleep apnea: pilot study, 815
 Computational fluid dynamics analysis of upper airway reconstructed from magnetic resonance imaging data, 303
 Uvulopalatopharyngoplasty: results of patient questionnaire, 24

Arytenoid adduction

- Collagen injection as supplement to arytenoid adduction for vocal fold paralysis, 430

Aspiration

- Botulinum toxin injection to salivary glands for treatment of sialorrhea with chronic aspiration, 118
 Computerized scoring system for diagnosis of foreign body aspiration in children, 839
 Long-term results of laryngeal suspension and upper esophageal sphincter myotomy as treatment for life-threatening aspiration, 574

Audiometry

- Auditory evaluation in patients with type 1 diabetes, 366

Auditory brain stem implant

- Effects of cochlear nuclei electrical stimulation with surface brain stem implants in nonhuman primates, 212

Auditory skills

- Auditory skills development among children with developmental delays and cochlear implants, 711

Auscultation

- Assessment of swallowing sounds by digital cervical auscultation in children, 253

Bacteria

- Damage to ciliated epithelium in chronic rhinosinusitis: what is role of bacterial biofilms? 902
- Microbiology and antimicrobial susceptibility patterns of commensal flora in middle nasal meatus, 914
- Recovery of potential pathogens in nasopharynx of healthy and otitis media-prone children and their smoking and nonsmoking parents, 727

Balance

- Prevalence and characteristics of preoperative balance disorders in cochlear implant candidates, 764

Balloon

- Multicenter registry of balloon catheter sinusotomy outcomes for 1,036 patients, 263
- Role of balloon dilation in management of adult idiopathic subglottic stenosis, 81

Bilateral stapedectomy

- Bilateral stapedectomy: association between first- and second-ear surgical findings and their effects on second-ear outcome, 207

Bimodal fitting

- Should hearing aid in contralateral ear be recommended for children with unilateral cochlear implant? 397

Bipotential collagen scaffold

- Regeneration of tracheal epithelium utilizing novel bipotential collagen scaffold, 359

Blindness

- Unilateral blindness following septoplasty, 528

Bone-anchored hearing aid

- Nijmegen results with application of bone-anchored hearing aid in children: simplified surgical technique, 805

Book Reviews

- Gulya AJ, ed. *Gulya and Schuknecht's Anatomy of the Temporal Bone With Surgical Implications*, 396
- Hormann K, ed. *An Update on Sleep Disordered Breathing*, 556
- Hughes G, Pensak M. *Clinical Otology*, 396
- Wormald P-J. *Endoscopic Sinus Surgery: Anatomy, Three-Dimensional Reconstruction, and Surgical Technique*, 556

Botulinum toxin

- Botulinum toxin injection to salivary glands for treatment of sialorrhea with chronic aspiration, 118
- Injection of botulinum toxin into external laryngeal muscles in pediatric laryngeal paralysis, 614

Cantonese

- Tone perception in Cantonese-speaking children with hearing aids, 313

Carcinoma

- Contralateral maxillary sinus lesions in patients with nasal cavity and/or paranasal sinus carcinoma: analysis of computed tomography findings, 909
- Development of mucosal thickening after radiotherapy in contralateral sinuses of patients with nasal cavity and/or paranasal sinus carcinoma, 844
- Laryngeal carcinoma in nonsmoking patients, 564

Cartilage

- Matrix metalloproteinases 2 and 9 are concentrated in luminal aspect of cricoid cartilage, diminish with loss of perichondrium, and are reinstated by transforming growth factor beta 3, 925
- Morphometric study on anatomy of fetal cricoid cartilage and comparison between its inner diameter and endotracheal tube sizes, 774

Cell

- Cell growth inhibition and down-regulation of survivin by silibinin in laryngeal squamous cell carcinoma cell line, 781
- EP4 agonist inhibits lipopolysaccharide-induced mucus secretion in airway epithelial cells, 51
- Roles of vitamin A and macula flava in maintaining vocal folds, 65

Cerebrospinal fluid

- Endoscopic management of sphenoid sinus cerebrospinal fluid leaks, 32

Cervical auscultation

- Assessment of swallowing sounds by digital cervical auscultation in children, 253

Chiari I malformation

- Sensorineural hearing impairment in children with Chiari I malformation, 443

Chronic rhinosinusitis

- Assessment of trends in antimicrobial resistance in chronic rhinosinusitis, 448
- Damage to ciliated epithelium in chronic rhinosinusitis: what is role of bacterial biofilms? 902
- Do anxiety and depression confound symptom reporting and diagnostic accuracy in chronic rhinosinusitis? 18
- Relationship between mucosal inflammation, computed tomography, and symptomatology in chronic rhinosinusitis without polyposis, 517

Cidofovir

- Cidofovir efficacy in recurrent respiratory papillomatosis: randomized, double-blind, placebo-controlled study, 477
- Histologic review of cidofovir-treated recurrent respiratory papillomatosis, 113

Ciliary beat frequency

- Effect of oxymetazoline on healthy human nasal ciliary beat frequency measured with high-speed digital microscopy and mucociliary transport time, 127

Cleft palate

- Results of sonotubometry in testing eustachian tube ventilatory function in children with cleft palate, 335

Closure

- Orocutaneous and pharyngocutaneous fistula closure using vacuum-assisted closure system, 298

Coblation

- Coblation-assisted lingual tonsillectomy for dysphagia secondary to tongue base hypertrophy, 506

Cochlear implant

- Auditory skills development among children with developmental delays and cochlear implants, 711
- Incapacitating unilateral tinnitus in single-sided deafness treated by cochlear implantation, 645
- Optical coherence tomography imaging of inner ear: feasibility study with implications for cochlear implantation, 341
- Prevalence and characteristics of preoperative balance disorders in cochlear implant candidates, 764

- Should hearing aid in contralateral ear be recommended for children with unilateral cochlear implant? 397
- Cochlear nuclei**
Effects of cochlear nuclei electrical stimulation with surface brain stem implants in nonhuman primates, 212
- Cod liver oil**
Cod liver oil, vitamin A toxicity, frequent respiratory infections, and vitamin D deficiency epidemic, 864
- Collagen**
Collagen injection as supplement to arytenoid adduction for vocal fold paralysis, 430
Regeneration of tracheal epithelium utilizing novel bipotential collagen scaffold, 359
- Commensal flora**
Microbiology and antimicrobial susceptibility patterns of commensal flora in middle nasal meatus, 914
- Commentaries**
Cod liver oil, vitamin A toxicity, frequent respiratory infections, and vitamin D deficiency epidemic, 864
Commentary on "Microendoscopy of Reinke's Space," 515
- Compliance**
Patient compliance with proton pump inhibitor therapy in otolaryngology practice, 670
- Complication**
Airway obstruction: rare complication of benign vocal fold polyps, 106
Endoscopic localization of anterior and posterior ethmoid arteries, 931
Laryngeal complications of endotracheal intubation, suppl 200
Preoperative laryngeal nerve screening for revision anterior cervical spine procedures, 594
- Computational fluid dynamics**
Computational fluid dynamics analysis of upper airway reconstructed from magnetic resonance imaging data, 303
- Computer-aided diagnosis**
Computer-aided technique for automatic determination of relationship between transglottal pressure change and voice fundamental frequency, 876
- Concha bullosa**
Large concha bullosa mucopycele replacing anterior ethmoid sinuses and contiguous with frontal sinus, 15
- Continuous positive airway pressure**
Effect of changing airway pressure on ability of human nose to warm and humidify air, 501
- Contralateral lesion**
Contralateral maxillary sinus lesions in patients with nasal cavity and/or paranasal sinus carcinoma: analysis of computed tomography findings, 909
- Corticosteroid**
Treatment of sinusitis with corticosteroids in combination with antibiotics in experimentally induced rhinosinusitis, 389
- Cricotracheal resection**
Cricotracheal resection in children 2 years of age and younger, 110
Cricotracheal resection in nontracheotomized adults: prospective case series, 288
How does cricotracheal resection affect female voice? 85
- Croup**
Correlating clinical course of recurrent croup with endoscopic findings: retrospective observational study, 464
- Cytokine**
Changes in cytokine signaling and extracellular matrix production induced by inflammatory factors in cultured vocal fold fibroblasts, 227
Inflammatory cytokine responses to synthetic extracellular matrix injection to vocal fold lamina propria, 221
- Decompression**
Image-guided endoscopic orbital decompression for Graves' orbitopathy, 177
- Deep brain stimulation**
Evaluation of deep brain stimulation electrode for laryngeal pacing, 621
- Defect**
Pedicle temporoparietal galeal flap for reconstruction of intraoral defects, 581
- Depression**
Do anxiety and depression confound symptom reporting and diagnostic accuracy in chronic rhinosinusitis? 18
- Developmental delay**
Auditory skills development among children with developmental delays and cochlear implants, 711
- Dexmedetomidine**
Dexmedetomidine sedation for laryngeal framework surgery, 659
- Diabetes**
Auditory evaluation in patients with type 1 diabetes, 366
- Digastric muscle**
Digastric muscle sew-up procedure for repair of floor of mouth following pull-through operation for oral cancers, 745
- Dilation**
Role of balloon dilation in management of adult idiopathic subglottic stenosis, 81
- Diverticulum**
Endoscopic management of Zenker's diverticulum: factors predictive of success or failure, 531
Staged surgical management of hypopharyngeal traction diverticulum, 731
- Drainage**
Novel technique for peritonsillar abscess drainage, 637
- Dye**
Retrograde labeling of rat facial nerve with carbocyanine dyes to enhance intraoperative identification, 753
- Dysphagia**
Coblation-assisted lingual tonsillectomy for dysphagia secondary to tongue base hypertrophy, 506
Validity and reliability of Eating Assessment Tool (EAT-10), 919
- Dysplasia**
Institutional and comprehensive review of laryngeal leukoplakia, 74
- Early glottic cancer**
Photoangiolytic laser treatment of early glottic cancer: new management strategy, suppl 199
- Education**
Outcomes of otologic surgeries with special interest in learning curves of residents in tertiary referral setting, 103
- Electrical stimulation**
Adjunctive neuromuscular electrical stimulation for treat-

- ment-refractory dysphagia, 279
- Evaluation of deep brain stimulation electrode for laryngeal pacing, 621
- Electromyography**
 - Evaluation of functional recovery of recurrent laryngeal nerve using transoral laryngeal bipolar electromyography: rat model, 604
- Elongation**
 - Phonation threshold flow in elongated excised larynges, 548
- Emergency**
 - Utilization of LifeStat emergency airway device, 1
- Endolymph**
 - Composition of endolymphatic sac luminal fluid in patient with Mondini dysplasia, 123
 - Contemporary role of endolymphatic mastoid shunt surgery in era of transtympanic perfusion strategies, 871
- Endoscopy**
 - Correlating clinical course of recurrent croup with endoscopic findings: retrospective observational study, 464
 - Endoscopic localization of anterior and posterior ethmoid arteries, 931
 - Endoscopic management of sphenoid sinus cerebrospinal fluid leaks, 32
 - Endoscopic removal of giant fibrovascular polyp of esophagus, 587
- Endotracheal tube**
 - Laryngeal complications of endotracheal intubation, suppl 200
 - Morphometric study on anatomy of fetal cricoid cartilage and comparison between its inner diameter and endotracheal tube sizes, 774
- Ependymoma**
 - Spinal myxopapillary ependymoma metastatic to bilateral internal auditory canals, 98
- Epidermal growth factor receptor**
 - Expression and clinical significance of epidermal growth factor receptor and type 1 insulin-like growth factor receptor in nasopharyngeal carcinoma, 192
- Epithelium**
 - Damage to ciliated epithelium in chronic rhinosinusitis: what is role of bacterial biofilms? 902
 - Effect of fibroblasts on epithelial regeneration on surface of bioengineered trachea, 59
 - Vitamin A deficiency causes metaplasia in vocal fold epithelium: rat study, 153
- Esophagus**
 - Endoscopic management of Zenker's diverticulum: factors predictive of success or failure, 531
 - Endoscopic removal of giant fibrovascular polyp of esophagus, 587
 - Long-term results of laryngeal suspension and upper esophageal sphincter myotomy as treatment for life-threatening aspiration, 574
 - Postoperative monitoring of esophageal pressure in patients with obstructive sleep apnea-hypopnea syndrome who have undergone tonsillectomy with uvulopalatopharyngoplasty, 849
 - Transnasal esophagoscopy: white-light versus narrowband imaging, 886
- Ethmoid artery**
 - Endoscopic localization of anterior and posterior ethmoid arteries, 931
- Eustachian tube**
 - Obstruction of eustachian tube orifice and pressure changes in middle ear: are they correlated? 425
 - Results of sonotubometry in testing eustachian tube ventilatory function in children with cleft palate, 335
- Extracellular matrix**
 - Changes in cytokine signaling and extracellular matrix production induced by inflammatory factors in cultured vocal fold fibroblasts, 227
 - Effect of hepatocyte growth factor on gene expression of extracellular matrix during wound healing of injured rat vocal fold, 696
 - Extracellular matrix gene expression after vocal fold injury in rabbit model, 598
 - Inflammatory cytokine responses to synthetic extracellular matrix injection to vocal fold lamina propria, 221
 - Inflammatory factor profiles one hour following vocal fold injury, 145
- Fatigue**
 - Preliminary study on quantitative analysis of vocal loading effects on vocal fold dynamics using phonovibrograms, 484
- Fibroblast**
 - Effect of fibroblasts on epithelial regeneration on surface of bioengineered trachea, 59
- Fistula**
 - Orocutaneous and pharyngocutaneous fistula closure using vacuum-assisted closure system, 298
 - Sinocutaneous fistula secondary to chronic frontal rhinosinusitis: case series and literature review, 759
 - Vocal fold paralysis in infants with tracheoesophageal fistula, 896
- Flap**
 - Canal wall-down tympanoplasty with soft-wall reconstruction using pedicled temporoparietal fascial flap: technique and preliminary results, 719
 - Pedicled temporoparietal galeal flap for reconstruction of intraoral defects, 581
- Foreign body**
 - Computerized scoring system for diagnosis of foreign body aspiration in children, 839
- Framework surgery**
 - Efficacy of additional injection laryngoplasty after framework surgery, 5
- Fundamental frequency**
 - Computer-aided technique for automatic determination of relationship between transglottal pressure change and voice fundamental frequency, 876
- Gene**
 - Extracellular matrix gene expression after vocal fold injury in rabbit model, 598
 - Unique transgenic animal model for hereditary hearing loss, 827
- Gland**
 - Effect of irradiation on human laryngeal glands, 734
- Glossectomy**
 - Digastric muscle sew-up procedure for repair of floor of mouth following pull-through operation for oral cancers, 745
- Glycerol**
 - Vestibular evoked periocular potentials in Meniere's disease after glycerol testing, 800

- Glycosaminoglycan**
Glycosaminoglycan composition of vocal fold lamina propria in relation to function, 371
- Graft**
Partial lesions of intratemporal segment of facial nerve: graft versus partial reconstruction, 665
- Graves' orbitopathy**
Image-guided endoscopic orbital decompression for Graves' orbitopathy, 177
- Gray's minithyrotomy**
Clinical experience with Gray's minithyrotomy procedure, 437
- Gustation**
Clinical assessment of gustatory function before and after middle ear surgery: prospective study with two-year follow-up period, 769
- Harmonic scalpel**
Harmonic scalpel tonsillectomy using curved shears instrument versus cold dissection tonsillectomy: retrospective study, 46
- Healing**
Study of wound healing in rats treated with topical and injected mitomycin C, 786
- Hearing aid**
Nijmegen results with application of bone-anchored hearing aid in children: simplified surgical technique, 805
Should hearing aid in contralateral ear be recommended for children with unilateral cochlear implant? 397
Tone perception in Cantonese-speaking children with hearing aids, 313
- Hearing loss**
Auditory evaluation in patients with type 1 diabetes, 366
Hearing impairment in genotyped Wolfram syndrome patients, 494
Pilot study of universal newborn hearing screening in Japan: district-based screening program in Okayama, 166
Sensorineural hearing impairment in children with Chiari I malformation, 443
Sequential bilateral hearing loss in multiple sclerosis, 186
Unique transgenic animal model for hereditary hearing loss, 827
- Hemangioma**
Giant hypervascular lesion of sinonasal tract invading anterior skull base and orbit: puzzling case, 653
- Hepatocyte growth factor**
Effect of hepatocyte growth factor on gene expression of extracellular matrix during wound healing of injured rat vocal fold, 696
- Heredity**
Hearing impairment in genotyped Wolfram syndrome patients, 494
Oropharyngeal Kaposi sarcoma in related persons negative for human immunodeficiency virus, 172
Unique transgenic animal model for hereditary hearing loss, 827
- Heterozygosity**
Two sites of head and neck squamous cell carcinoma: utility of loss of heterozygosity, 591
- High-speed imaging**
High-speed imaging used to detect vocal fold paresis: case report, 684
- Hormone**
Prospective study of impact of thyroid hormone replacement on objective voice parameters, 523
- Human herpesvirus 8**
Oropharyngeal Kaposi sarcoma in related persons negative for human immunodeficiency virus, 172
- 25-Hydroxyvitamin D**
Plasma 25-hydroxyvitamin D levels in young children undergoing placement of tympanostomy tubes, 740
- Hylan B**
Hylan B gel restores structure and function to laser-ablated canine vocal folds, 703
- Hypervascular lesion**
Giant hypervascular lesion of sinonasal tract invading anterior skull base and orbit: puzzling case, 653
- Hypopharynx**
Clinical and pathologic predictors of survival in patients with squamous cell carcinoma of hypopharynx after surgical treatment, 201
- Imaging**
Comparison of high-speed digital imaging with stroboscopy for laryngeal imaging of glottal disorders, 413
Is there need for positron emission tomography imaging to stage N0 neck in T1-T2 squamous cell carcinoma of oral cavity or oropharynx? 854
Optical coherence tomography imaging of inner ear: feasibility study with implications for cochlear implantation, 341
Optical coherence tomography of newborn airway, 327
Qualification of quantitative laryngeal imaging system using videostroboscopy and videokymography, 404
- Imaging Case Study of the Month**
Traumatic pneumolabyrinth, 708
- Immunologic response**
Immunologic response of laryngeal mucosa to extraesophageal reflux, 891
- In situ tissue engineering**
In situ tissue engineering of cricoid and trachea in canine model, 609
- Infant**
Cricotracheal resection in children 2 years of age and younger, 110
- Inflammation**
Changes in cytokine signaling and extracellular matrix production induced by inflammatory factors in cultured vocal fold fibroblasts, 227
Inflammatory cytokine responses to synthetic extracellular matrix injection to vocal fold lamina propria, 221
Inflammatory factor profiles one hour following vocal fold injury, 145
Relationship between mucosal inflammation, computed tomography, and symptomatology in chronic rhinosinusitis without polyposis, 517
- Infliximab**
Effect of infliximab on experimentally induced otitis media in rats, 470
- Influenza**
Concurrent influenza A and group A beta-hemolytic streptococcal pharyngotonsillitis, 310
- Injection**
Efficacy of additional injection laryngoplasty after framework surgery, 5

- Injection of botulinum toxin into external laryngeal muscles in pediatric laryngeal paralysis, 614
- Inner ear
 - Composition of endolymphatic sac luminal fluid in patient with Mondini dysplasia, 123
- Interleukin
 - Interleukin-10 is essential modulator of mucoid metaplasia in mouse otitis media model, 630
- Internal auditory canal
 - Spinal myxopapillary ependymoma metastatic to bilateral internal auditory canals, 98
- Intubation
 - Laryngeal complications of endotracheal intubation, suppl 200

437

Mitomycin C

Study of wound healing in rats treated with topical and injected mitomycin C, 786

Mondini dysplasia

Composition of endolymphatic sac luminal fluid in patient with Mondini dysplasia, 123

Mucin

Mucin gene expression in human laryngeal epithelia: effect of laryngopharyngeal reflux, 688

Mucocele

Large concha bullosa mucopyocele replacing anterior ethmoid sinuses and contiguous with frontal sinus, 15

Mucociliary transport time

Effect of oxymetazoline on healthy human nasal ciliary beat frequency measured with high-speed digital microscopy and mucociliary transport time, 127

Mucosa

Immunologic response of laryngeal mucosa to extraesophageal reflux, 891

Mucus

EP4 agonist inhibits lipopolysaccharide-induced mucus secretion in airway epithelial cells, 51

Multiple sclerosis

Sequential bilateral hearing loss in multiple sclerosis, 186

Muscle

Intrinsic laryngeal muscle reinnervation using muscle-nerve-muscle technique, 382

Myocarditis

Acute myopericarditis complicating acute tonsillitis: beware young male patient with tonsillitis complaining of chest pain, 295

Nasopharyngeal carcinoma

Expression and clinical significance of epidermal growth factor receptor and type 1 insulin-like growth factor receptor in nasopharyngeal carcinoma, 192

Nerve

Clinical assessment of gustatory function before and after middle ear surgery: prospective study with two-year follow-up period, 769

Evaluation of functional recovery of recurrent laryngeal nerve using transoral laryngeal bipolar electromyography: rat model, 604

Intrinsic laryngeal muscle reinnervation using muscle-nerve-muscle technique, 382

Management of neurologic disorders of larynx, 317

Preoperative laryngeal nerve screening for revision anterior cervical spine procedures, 594

Reflex vocal fold adduction in porcine model: effects of stimuli delivered to various sensory nerves, 749

Retrograde labeling of rat facial nerve with carbocyanine dyes to enhance intraoperative identification, 753

Neurologic disorder

Management of neurologic disorders of larynx, 317

Neuromuscular electrical stimulation

Adjunctive neuromuscular electrical stimulation for treatment-refractory dysphagia, 279

Newborn

Pilot study of universal newborn hearing screening in Japan: district-based screening program in Okayama, 166

Oncostatin M

Expression of oncostatin M in chronic obstructive sialadenitis of submandibular gland, 347

Optical coherence tomography

Optical coherence tomography-enhanced microlaryngoscopy: preliminary report of noncontact optical coherence tomography system integrated with surgical microscope, 538

Optical coherence tomography imaging of inner ear: feasibility study with implications for cochlear implantation, 341

Optical coherence tomography of newborn airway, 327

Orbit

Image-guided endoscopic orbital decompression for Graves' orbitopathy, 177

Unilateral blindness following septoplasty, 528

Osseointegration

Nijmegen results with application of bone-anchored hearing aid in children: simplified surgical technique, 805

Osteogenesis imperfecta

Neonatal upper airway obstruction in osteogenesis imperfecta: series of three cases and review of literature, 27

Otitis media

Effect of infliximab on experimentally induced otitis media in rats, 470

Interleukin-10 is essential modulator of mucoid metaplasia in mouse otitis media model, 630

Obstruction of eustachian tube orifice and pressure changes in middle ear: are they correlated? 425

Recovery of potential pathogens in nasopharynx of healthy and otitis media-prone children and their smoking and nonsmoking parents, 727

Otosclerosis

Bilateral stapedectomy: association between first- and second-ear surgical findings and their effects on second-ear outcome, 207

Observations on bilateral symmetry of stapedial footplate lesion and narrowing of oval window niche in otosclerosis, 569

Outcome

Multicenter registry of balloon catheter sinusotomy outcomes for 1,036 patients, 263

Outcomes of otologic surgeries with special interest in learning curves of residents in tertiary referral setting, 103

Pediatric voice-related quality of life: findings in healthy children and in common laryngeal disorders, 259

Treatment of tinnitus with customized, dynamic acoustic neural stimulus: clinical outcomes in general private practice, 791

Oval window

Observations on bilateral symmetry of stapedial footplate lesion and narrowing of oval window niche in otosclerosis, 569

Oxymetazoline

Effect of oxymetazoline on healthy human nasal ciliary beat frequency measured with high-speed digital microscopy and mucociliary transport time, 127

Pacing

Evaluation of deep brain stimulation electrode for laryngeal pacing, 621

Papillomatosis

Cidofovir efficacy in recurrent respiratory papillomatosis: randomized, double-blind, placebo-controlled study, 477

- Histologic review of cidofovir-treated recurrent respiratory papillomatosis, 113
- Paralysis**
- Ansa cervicalis-to-recurrent laryngeal nerve anastomosis for unilateral vocal fold paralysis: experience of single institution, 40
 - Collagen injection as supplement to arytenoid adduction for vocal fold paralysis, 430
 - Injection of botulinum toxin into external laryngeal muscles in pediatric laryngeal paralysis, 614
 - Partial lesions of intratemporal segment of facial nerve: graft versus partial reconstruction, 665
 - Performance of automated, remote system to detect vocal fold paralysis, 834
 - Vocal fold paralysis in infants with tracheoesophageal fistula, 896
- Paresis**
- High-speed imaging used to detect vocal fold paresis: case report, 684
- Particle imaging velocimetry**
- Using particle imaging velocimetry to measure anterior-posterior velocity gradients in excised canine larynx model, 134
- Pepsin**
- Mucin gene expression in human laryngeal epithelia: effect of laryngopharyngeal reflux, 688
- Perceptual evaluation**
- Reliability of perceptual evaluation of adductor spasmodic dysphonia, 159
- Pericarditis**
- Acute myopericarditis complicating acute tonsillitis: beware young male patient with tonsillitis complaining of chest pain, 295
- Pharynx**
- Staged surgical management of hypopharyngeal traction diverticulum, 731
- Phonation threshold flow**
- Phonation threshold flow in elongated excised larynges, 548
- Phonovibrogram**
- Preliminary study on quantitative analysis of vocal loading effects on vocal fold dynamics using phonovibrograms, 484
- Photoangiolytic laser treatment**
- Photoangiolytic laser treatment of early glottic cancer: new management strategy, suppl 199
- Photocoagulation**
- Endoscopic KTP laser photocoagulation therapy for pharyngolaryngeal venous malformations in adults, 881
- Pitch**
- Pitch deviation analysis of pathological voice in connected speech, 90
- Pneumolabyrinth**
- Traumatic pneumolabyrinth, 708
- Polyp**
- Airway obstruction: rare complication of benign vocal fold polyps, 106
 - Endoscopic removal of giant fibrovascular polyp of esophagus, 587
 - Office pulsed dye laser treatment for benign laryngeal vascular polyps: preliminary study, 353
- Positron emission tomography**
- Is there need for positron emission tomography imaging to stage N0 neck in T1-T2 squamous cell carcinoma of oral cavity or oropharynx? 854
- Potential**
- Vestibular evoked myogenic and periocular potentials after vestibular schwannoma surgery, 11
 - Vestibular evoked periocular potentials in Meniere's disease after glycerol testing, 800
- Prognosis**
- Clinical and pathologic predictors of survival in patients with squamous cell carcinoma of hypopharynx after surgical treatment, 201
- Prostaglandin**
- EP4 agonist inhibits lipopolysaccharide-induced mucus secretion in airway epithelial cells, 51
- Proteoglycan**
- Glycosaminoglycan composition of vocal fold lamina propria in relation to function, 371
- Proton pump inhibitor**
- Patient compliance with proton pump inhibitor therapy in otolaryngology practice, 670
- Pull-through operation**
- Digastric muscle sew-up procedure for repair of floor of mouth following pull-through operation for oral cancers, 745
- Pulsed dye laser**
- Office pulsed dye laser treatment for benign laryngeal vascular polyps: preliminary study, 353
- Quality of life**
- Pediatric voice-related quality of life: findings in healthy children and in common laryngeal disorders, 259
 - Validity and reliability of Eating Assessment Tool (EAT-10), 919
- Questionnaire**
- Uvulopalatopharyngoplasty: results of patient questionnaire, 24
- Radiotherapy**
- Development of mucosal thickening after radiotherapy in contralateral sinuses of patients with nasal cavity and/or paranasal sinus carcinoma, 844
- Receptor**
- Expression and clinical significance of epidermal growth factor receptor and type 1 insulin-like growth factor receptor in nasopharyngeal carcinoma, 192
- Reconstruction**
- Canal wall-down tympanoplasty with soft-wall reconstruction using pedicled temporoparietal fascial flap: technique and preliminary results, 719
 - Clinical application of in situ tissue engineering using scaffolding technique for reconstruction of larynx and trachea, 673
 - Pedicled temporoparietal galeal flap for reconstruction of intraoral defects, 581
- Recurrent croup**
- Correlating clinical course of recurrent croup with endoscopic findings: retrospective observational study, 464
- Recurrent laryngeal nerve**
- Ansa cervicalis-to-recurrent laryngeal nerve anastomosis for unilateral vocal fold paralysis: experience of single institution, 40

- Recurrent respiratory papillomatosis**
Cidofovir efficacy in recurrent respiratory papillomatosis: randomized, double-blind, placebo-controlled study, 477
- Reflex**
Reflex vocal fold adduction in porcine model: effects of stimuli delivered to various sensory nerves, 749
- Reflux**
Immunologic response of laryngeal mucosa to extraesophageal reflux, 891
Mucin gene expression in human laryngeal epithelia: effect of laryngopharyngeal reflux, 688
Patient compliance with proton pump inhibitor therapy in otolaryngology practice, 67
Transnasal esophagoscopy: white-light versus narrowband imaging, 886
- Regeneration**
Effect of fibroblasts on epithelial regeneration on surface of bioengineered trachea, 59
In situ tissue engineering of cricoid and trachea in canine model, 609
Regeneration of trachea using bioengineered scaffold with adipose-derived stem cells, 453
- Reinke's space**
Commentary on "Microendoscopy of Reinke's Space," 515
Microendoscopy of Reinke's space, 510
- Reinnervation**
Intrinsic laryngeal muscle reinnervation using muscle-nerve-muscle technique, 382
- Respiration**
Post-laryngectomy speech respiration patterns, 557
- Respiratory papillomatosis**
Histologic review of cidofovir-treated recurrent respiratory papillomatosis, 113
- Retrocochlear hearing loss**
Effects of cochlear nuclei electrical stimulation with surface brain stem implants in nonhuman primates, 212
- Rhinosinusitis**
Sinocutaneous fistula secondary to chronic frontal rhinosinusitis: case series and literature review, 759
- Salivary duct**
Comparative ultrasonographic, magnetic resonance sialographic, and videoendoscopic assessment of salivary duct disorders, 245
Role of sialoscopy in treatment of Stensen's duct strictures, 271
- Scaffold**
Clinical application of in situ tissue engineering using scaffolding technique for reconstruction of larynx and trachea, 673
- Scalpel**
Harmonic scalpel tonsillectomy using curved shears instrument versus cold dissection tonsillectomy: retrospective study, 46
- Scanning**
Current state of scanning micromanipulator applications with carbon dioxide laser, 239
- Scar**
Extracellular matrix gene expression after vocal fold injury in rabbit model, 598
- Schwannoma**
Abnormal deviation of subjective visual horizontal in patients with vestibular schwannoma, 641
Vestibular evoked myogenic and periocular potentials after vestibular schwannoma surgery, 11
- Scoring system**
Computerized scoring system for diagnosis of foreign body aspiration in children, 839
- Screening**
Pilot study of universal newborn hearing screening in Japan: district-based screening program in Okayama, 166
- Sedation**
Dexmedetomidine sedation for laryngeal framework surgery, 659
- Sensorineural hearing loss**
Sensorineural hearing impairment in children with Chiari I malformation, 443
- Septoplasty**
Unilateral blindness following septoplasty, 528
- Sequential bilateral hearing loss**
Sequential bilateral hearing loss in multiple sclerosis, 186
- Shunt**
Contemporary role of endolymphatic mastoid shunt surgery in era of transtympanic perfusion strategies, 871
- Sialadenitis**
Expression of oncostatin M in chronic obstructive sialadenitis of submandibular gland, 347
- Sialorrhea**
Botulinum toxin injection to salivary glands for treatment of sialorrhea with chronic aspiration, 118
- Sialendoscopy**
Microendoscopy of Reinke's space, 510
Role of sialoscopy in treatment of Stensen's duct strictures, 271
- Silibinin**
Cell growth inhibition and down-regulation of survivin by silibinin in laryngeal squamous cell carcinoma cell line, 781
- Single-sided deafness**
Incapacitating unilateral tinnitus in single-sided deafness treated by cochlear implantation, 645
- Sinocutaneous fistula**
Sinocutaneous fistula secondary to chronic frontal rhinosinusitis: case series and literature review, 759
- Sinus**
Assessment of trends in antimicrobial resistance in chronic rhinosinusitis, 448
Contralateral maxillary sinus lesions in patients with nasal cavity and/or paranasal sinus carcinoma: analysis of computed tomography findings, 909
Development of mucosal thickening after radiotherapy in contralateral sinuses of patients with nasal cavity and/or paranasal sinus carcinoma, 844
Endoscopic management of sphenoid sinus cerebrospinal fluid leaks, 32
Large concha bullosa mucopyocele replacing anterior ethmoid sinuses and contiguous with frontal sinus, 15
Multicenter registry of balloon catheter sinusotomy outcomes for 1,036 patients, 263
Treatment of sinusitis with corticosteroids in combination with antibiotics in experimentally induced rhinosinusitis, 389

Sleep apnea

- Adjustable tongue advancement for obstructive sleep apnea: pilot study, 815
- Postoperative monitoring of esophageal pressure in patients with obstructive sleep apnea-hypopnea syndrome who have undergone tonsillectomy with uvulopalatopharyngoplasty, 849

Smoking

- Laryngeal carcinoma in nonsmoking patients, 564
- Recovery of potential pathogens in nasopharynx of healthy and otitis media-prone children and their smoking and nonsmoking parents, 727

Sonotubometry

- Results of sonotubometry in testing eustachian tube ventilatory function in children with cleft palate, 335

Spasmodic dysphonia

- Reliability of perceptual evaluation of adductor spasmodic dysphonia, 159

Speech

- Performance of automated, remote system to detect vocal fold paralysis, 834
- Pitch deviation analysis of pathological voice in connected speech, 90
- Post-laryngectomy speech respiration patterns, 557

Spine

- Preoperative laryngeal nerve screening for revision anterior cervical spine procedures, 594
- Staged surgical management of hypopharyngeal traction diverticulum, 731

Squamous cell carcinoma

- Clinical and pathologic predictors of survival in patients with squamous cell carcinoma of hypopharynx after surgical treatment, 201
- Two sites of head and neck squamous cell carcinoma: utility of loss of heterozygosity, 591

Stapes

- Bilateral stapedectomy: association between first- and second-ear surgical findings and their effects on second-ear outcome, 207
- Observations on bilateral symmetry of stapedial footplate lesion and narrowing of oval window niche in otosclerosis, 569

Stem cell

- Regeneration of trachea using bioengineered scaffold with adipose-derived stem cells, 453

Stenosis

- Cricotracheal resection in children 2 years of age and younger, 110
- Cricotracheal resection in nontracheotomized adults: prospective case series, 288
- How does cricotracheal resection affect female voice? 85
- Matrix metalloproteinases 2 and 9 are concentrated in luminal aspect of cricoid cartilage, diminish with loss of perichondrium, and are reinstated by transforming growth factor beta 3, 925
- Role of balloon dilation in management of adult idiopathic subglottic stenosis, 81

Stensen's duct

- Role of sialoscopy in treatment of Stensen's duct strictures, 271

Streptococcus

- Concurrent influenza A and group A beta-hemolytic strepto-

coccal pharyngotonsillitis, 310

Stroboscopy

- Comparison of high-speed digital imaging with stroboscopy for laryngeal imaging of glottal disorders, 413
- Qualification of quantitative laryngeal imaging system using videostroboscopy and videokymography, 404

Subjective visual horizontal

- Abnormal deviation of subjective visual horizontal in patients with vestibular schwannoma, 641

Submandibular gland

- Expression of oncostatin M in chronic obstructive sialadenitis of submandibular gland, 347

Survivin

- Cell growth inhibition and down-regulation of survivin by silibinin in laryngeal squamous cell carcinoma cell line, 781

Swallowing

- Adjunctive neuromuscular electrical stimulation for treatment-refractory dysphagia, 279
- Assessment of swallowing sounds by digital cervical auscultation in children, 253
- Validity and reliability of Eating Assessment Tool (EAT-10), 919

Symptomatology

- Relationship between mucosal inflammation, computed tomography, and symptomatology in chronic rhinosinusitis without polyposis, 517

Taste

- Clinical assessment of gustatory function before and after middle ear surgery: prospective study with two-year follow-up period, 769

Temperature

- Effect of changing airway pressure on ability of human nose to warm and humidify air, 501

Thyroid hormone

- Prospective study of impact of thyroid hormone replacement on objective voice parameters, 523

Thyrotomy

- Clinical experience with Gray's minithyrotomy procedure, 437

Tinnitus

- Incapacitating unilateral tinnitus in single-sided deafness treated by cochlear implantation, 645
- Treatment of tinnitus with customized, dynamic acoustic neural stimulus: clinical outcomes in general private practice, 791

Tissue engineering

- Clinical application of in situ tissue engineering using scaffolding technique for reconstruction of larynx and trachea, 673
- Hylan B gel restores structure and function to laser-ablated canine vocal folds, 703
- In situ tissue engineering of cricoid and trachea in canine model, 609

Tone perception

- Tone perception in Cantonese-speaking children with hearing aids, 313

Tongue

- Adjustable tongue advancement for obstructive sleep apnea: pilot study, 815

Tonsil

- Acute myopericarditis complicating acute tonsillitis: beware young male patient with tonsillitis complaining of chest pain, 295
- Coblation-assisted lingual tonsillectomy for dysphagia secondary to tongue base hypertrophy, 506
- Concurrent influenza A and group A beta-hemolytic streptococcal pharyngotonsillitis, 310
- Harmonic scalpel tonsillectomy using curved shears instrument versus cold dissection tonsillectomy: retrospective study, 46
- Novel technique for peritonsillar abscess drainage, 637
- Postoperative monitoring of esophageal pressure in patients with obstructive sleep apnea-hypopnea syndrome who have undergone tonsillectomy with uvulopalatopharyngoplasty, 849

Trachea

- Regeneration of trachea using bioengineered scaffold with adipose-derived stem cells, 453
- Regeneration of tracheal epithelium utilizing novel bipotential collagen scaffold, 359
- Vocal fold paralysis in infants with tracheoesophageal fistula, 896

Tracheotomy

- Neonatal upper airway obstruction in osteogenesis imperfecta: series of three cases and review of literature, 27

Transnasal esophagoscopy

- Transnasal esophagoscopy: white-light versus narrowband imaging, 886

Transoral electromyography

- Evaluation of functional recovery of recurrent laryngeal nerve using transoral laryngeal bipolar electromyography: rat model, 604

Trauma

- Partial lesions of intratemporal segment of facial nerve: graft versus partial reconstruction, 665
- Traumatic pneumolabyrinth, 708

Tumor necrosis factor alpha

- Effect of infliximab on experimentally induced otitis media in rats, 470

Tympanoplasty

- Canal wall-down tympanoplasty with soft-wall reconstruction using pedicled temporoparietal fascial flap: technique and preliminary results, 719

Tympanostomy tube

- Plasma 25-hydroxyvitamin D levels in young children undergoing placement of tympanostomy tubes, 740

Ultrasonography

- Comparative ultrasonographic, magnetic resonance sialographic, and videoendoscopic assessment of salivary duct disorders, 245

Uvulopalatopharyngoplasty

- Uvulopalatopharyngoplasty: results of patient questionnaire, 24

Vacuum-assisted closure

- Orocutaneous and pharyngocutaneous fistula closure using vacuum-assisted closure system, 298

Velocity

- Using particle imaging velocimetry to measure anterior-posterior velocity gradients in excised canine larynx model, 134

Vestibular system

- Abnormal deviation of subjective visual horizontal in patients

with vestibular schwannoma, 641

Prevalence and characteristics of preoperative balance disorders in cochlear implant candidates, 764

Vestibular evoked myogenic and pericocular potentials after vestibular schwannoma surgery, 11

Videokymography

Qualification of quantitative laryngeal imaging system using videostroboscopy and videokymography, 404

Vitamin

Cod liver oil, vitamin A toxicity, frequent respiratory infections, and vitamin D deficiency epidemic, 864

Plasma 25-hydroxyvitamin D levels in young children undergoing placement of tympanostomy tubes, 740

Roles of vitamin A and macula flava in maintaining vocal folds, 65

Vitamin A deficiency causes metaplasia in vocal fold epithelium: rat study, 153

Vocal fold

High-speed imaging used to detect vocal fold paresis: case report, 684

Institutional and comprehensive review of laryngeal leukoplakia, 74

Phonation threshold flow in elongated excised larynges, 548

Voice

Comparison of high-speed digital imaging with stroboscopy for laryngeal imaging of glottal disorders, 413

Computer-aided technique for automatic determination of relationship between transglottal pressure change and voice fundamental frequency, 876

Efficacy of additional injection laryngoplasty after framework surgery, 5

How does cricotracheal resection affect female voice? 85

Pediatric voice-related quality of life: findings in healthy children and in common laryngeal disorders, 259

Performance of automated, remote system to detect vocal fold paralysis, 834

Pitch deviation analysis of pathological voice in connected speech, 90

Preliminary study on quantitative analysis of vocal loading effects on vocal fold dynamics using phonovibrograms, 484

Prospective study of impact of thyroid hormone replacement on objective voice parameters, 523

Reliability of perceptual evaluation of adductor spasmodic dysphonia, 159

Using particle imaging velocimetry to measure anterior-posterior velocity gradients in excised canine larynx model, 134

Water content

Effect of changing airway pressure on ability of human nose to warm and humidify air, 501

Wolfram syndrome

Hearing impairment in genotyped Wolfram syndrome patients, 494

Wound healing

Effect of hepatocyte growth factor on gene expression of extracellular matrix during wound healing of injured rat vocal fold, 696

Inflammatory factor profiles one hour following vocal fold injury, 145

Study of wound healing in rats treated with topical and injected mitomycin C, 786

Zenker's diverticulum

Endoscopic management of Zenker's diverticulum: factors predictive of success or failure, 531
